Definition of Terrorism

Terrorism is defined in the Code of Federal Regulations as “the unlawful use of force or violence against persons or property to intimidate or coerce a government, the civilian population, or any segment thereof, in furtherance of political or social objectives” (28 C.F.R. Section 0.85).

Extremism involves espousing particular ideologies, including criminal activity to advance those ideologies. The ideologies are typically outside society’s key values and “support racial or religious supremacy and/or oppose the core principles of democracy and human rights.” The underlying ideology itself and the advocacy of “violent extremism” beliefs is not prohibited by US law.

UNCLASSIFIED
Oath Keepers

- Loosely-organized anti-government extremist group started by attorney E. Stewart Rhodes
- Semi-paramilitary, seek recruits from former and active duty military personnel, law enforcement officers and first responders.
The term “Three Percenter” refers to the erroneous belief that only 3% of the colonists fought against the British during the Revolutionary War – but achieved liberty for everyone.

Three Percenters view themselves as modern day versions of those revolutionaries, fighting a tyrannical U.S. government. The Three Percenter concept allowed many people to join who were not suited physically or by inclination, to engage in paramilitary activities.

The Three Percenter logo – the Roman numeral III – has become very popular among anti-government extremists.

The Extreme Left

ANARCHIST

Good night alt right
Here's a super rare Pepe for my comrades!
Extreme Left Influences
Karl Marx’s Influence

- Marx believed that economic and social conditions, and especially the class relations that derive from them, affect every aspect of an individual’s life (religious beliefs, legal systems and cultural frameworks)

- Capitalism is destined to collapse. The proletariat (workers) will overthrow the bourgeois (ruling class) and instill socialism

- Conflict Theory – due to society’s never-ending competition for resources, there will always be conflict. Established social and economic institutions are tools of the struggle and used to maintain inequality and dominance of the ruling class

Gun Laws Changed but Statement Made

- Mulford Act, signed into law on April 5, 1967 by then governor of California, Ronald Reagan, the bill was crafted with the goal of disarming members of the Black Panther Party who were lawfully conducting armed patrols of Oakland neighborhoods, in what would later be termed cop-watching.

- Black-bloc look captured the attention of Hollywood and the nation: “Radical Chic”

Anarchism

- Anarchism is the radical, revolutionary leftist political philosophy that advocates for the abolition of government, hierarchy, and all other unequal systems of power.

- It seeks to replace what its proponents view as inherently oppressive institutions – like a capitalist society or the prison industrial complex – with nonhierarchical, horizontal structures powered by voluntary associations with people.

- Anarchists organize around a key set of principles: horizontalism, mutual aid, autonomy, solidarity, direct action and direct democracy.

Social Media Platforms – Bottom Line

• Be extremely diligent regarding the social media platforms you visit

• Comments regarding the following will not be tolerated:
  - Hatred towards a person or group
  - Racial bias
  - Encouraging violence
• Extremist groups will start by spreading entertaining, non-controversial content
• Sometimes a common grievance will build a false sense of trust and solidarity with the group. For example, economic anxiety or resentment directed toward the government
• Eventually, disinformation will be mixed in and it will steer followers to more extreme positions
• Who produced the content? Question their reasons for providing the material
• Be mindful of information that appears to be entertainment or news
• Even "research institutes or foundations" might be expensive efforts to spread disinformation
• If it is not from a credible source, or you can't find a second reliable source to corroborate its content, don't click on it or share it
• Being well-informed means getting information from many places before coming to your own conclusions
Tactical Pause Before You Click or Share

- Take a moment before sharing a link, email or other message.
- Ask yourself why you are sharing this information?
- Talk to your social circle about risks associated with spreading disinformation or extremist views.
- Share your perspective about extremist groups and disinformation with your family and friends.
- If you are concerned about those in your social circle falling victim to extreme views, try and educate them about the risks of reading and sharing disinformation.
